THE PROPERTY

This spacious villa is located towards the end of a cul-de-sac in Kirkton area of Dundee.

Ideally located for schools and amenities Kirkton remains popular to families and investors.

Originally a three bedroom villa the home was altered slightly to provide two spacious double bedrooms on the first floor, with the downstairs bedroom being repurposed as a dining room.

Due to the nature of the conversion it would be relatively simple to change this back to a bedroom again by opening up the door from the hall.

Accommodation comprises a spacious lounge, kitchen and the aforementioned dining room on the ground floor, whilst on the upper floor is the family bathroom and two double bedrooms.

The property does require modernisation but there a high efficiency Worcester gas combination boiler fitted and double glazed windows throughout so any modernisation is more of a cosmetic refresh rather than any major structural works. The kitchen and bathroom again are dated but functional.

Gardens to both the front and rear of the home have been much loved, with a spacious back garden featuring a shed. The front gardens are laid mostly to gravel but with a gated driveway providing off street parking.

The asking price for the property reflects the works that are required in order to modernise the home. This is a solidly built spacious property with off street parking, tranquil gardens, modern gas boiler and double glazed windows.
